AIR FORCE CIVIL ENGINEER SUPPORT AGENCY

99-40

AUGUST 1999

ENVIRONMENTAL BUILDING NEWS E BUILD LIBRARY

SYNOPSIS:

E Build Library provides an unbiased information source, encyclopedia green building reference, focused on the products, practices, ideas, and surrounding market issues of environmentally responsible, sustainable design and construction. The compact disk (CD) is a valuable addition to the energy manager's library that helps him/her better understand the relationship between energy conservation and sustainable development.

DETAILS:

HQ AFCESA purchased the distribution of one CD for the energy manager in each Air Force MAJCOM and base civil engineer organization, along with the

licensing rights for everyone in those organizations to access the information. *Environmental Building News* provides a new CD annually. If you have not received your copy, please contact the POC or Mr. Rich Bauman, HQ AFCESA/CES, TRW Contract Support, DSN 523-6206, E-mail: rich.bauman@afcesa.af.mil.

The CD contains the following information:

- 6 years of the publication *Environmental Building News* (EBN) (Volumes 1-6)
- Comprehensive green building products directory
- Detailed bibliography of the most useful green building resources

The EBN newsletter provides a wide range of information on environmentally sustainable design and construction issues, including leading edge case studies of sustainable design through hands-on construction. The reports show the bad as well as the good in the items they cover.

The green building products directory lists sources of these products in three manners: product name, manufacturer name, and

construction specification institute format.

The detailed bibliography provides an extensive list of publications that can be purchased covering various sustainable design topics.

HOW TO USE E BUILD LIBRARY DISK:

System requirements are Microsoft operating system 3.1 or later, CD-ROM drive, 10 MB available hard disk space, 8 MB available RAM, and i386 processor or later. Also required is Adobe Acrobat Reader version 3.1 with Search installed. This is available on the CD-ROM disk.
